Disclosures: ****Please Read Carefully****

- You will be asked to schedule your follow-up at the end of each visit. *We cannot stress enough how important these follow-up visits are to maintain progress of the treatment.*
- In approximately 7-10 days you *may* experience an exacerbation of your symptoms. This is referred to as a “healing crisis.” This is normal/expected, although it does not impact everyone. If you experience strong reactions, please contact the office. We will provide instructions necessary to minimize this normal response.
- Nutritional supplements (Sols) may contain alcohol. If you cannot use alcohol, please advise us.
- To achieve the best progress in your treatment, take the nutritional supplements (Sols) as directed.
- Please do NOT take your nutritional supplements (Sols) within 5 hours of the time you come for your follow up visit so as to not negatively impact the evaluation. We recommend that you make a note on your calendar to remember this time restriction on the day of your follow-up.
- You will be given one specialty blue light per household to enable you to easily determine the level of liquid remaining in your nutritional supplement (Sols) bottles. I understand that the light has the potential to cause injury if not utilized correctly, and I will take full responsibility to use the light properly (e.g.: not point the light in anyone’s eyes).
Initial: _____
- If you would like our help to determine when to buy more nutritional supplements (Sols), please come prepared: use the blue light provided to you to determine the amount of sprays remaining in your current bottles; record this on the sheet provided to you. After your appointment, we will work with you to determine what nutritional supplements (Sols) you are recommended to purchase.
- Special orders and back-orders may be necessary; prepayment of these orders is required. We will contact you when your order has arrived for you to pick up the ordered item(s). Please keep in mind when ordering that it generally takes 7-14 days for us to receive shipments for backorders/special orders.
- To help us feel your pulse with more ease, drink plenty of water prior to your appointment.

Disclosures (Continued)

- If you choose to take your nutritional supplements (Sols) with you while traveling by air, make every attempt to take nutritional supplements in your carry-on luggage. Please be aware that there is a risk of leakage and/or security check challenges. Occasional exposure to x-ray should not harm them. Also, do not expose the nutritional supplements (Sols) to extremes of temperature or leave them near strong electrical sources. Please do not hesitate to contact us if you have questions.
- *NO nutritional supplements (Sols) will be accepted for return.*
- I understand that no services or products offered by Feeling Better Together will be charged to my insurance company. I understand I will be financially obligated to pay the total amount in full at the time of service. We accept Visa, MC, Discover, American Express, Debit cards, and cash.
- Feeling Better Together is *By Appointment Only*. We will do our best to return phone calls or emails initiated by the client as soon as possible. If you do not hear from us within 3 business days of your initial contact, please reach out again. Neither our voicemail nor email is HIPPA compliant, so do not leave any health information in either location.
- Each person receiving treatment needs to have his/her own appointment. If you would like to switch appointments for family members, please notify us at least three days in advance.
- If you stop coming for follow-up appointments for a time frame longer than 9 months between appointments, then you will be considered a new patient at your returning visit. All new patient fees will be applied upon your return appointment.

By signing below, I agree to abide by these guidelines.

Instructions for Clients Using Spray and Pellet Nutritional Supplements (“Sols”)

Note: *If you have a known allergy to alcohol or a history of alcohol abuse/addiction, do NOT take Liquid Spray Sols since they are alcohol based. You must coordinate with the office to take the pellets nutritional supplements instead.*

Initial: _____

1. Liquid Sprays: Spray the Sol directly into your mouth under your tongue. Try to let them sit under your tongue before swallowing.

Pellets: Place the Pellets under your tongue and let them dissolve. Do not chew them.
2. Both: If prescribed to take them more than once per day, **make sure to have at least 1 hour between doses.**
3. Both: **You can continue taking any traditional western or herbal medicines together with your Sols.** Because the Sols work by stimulating the body’s self-defense mechanism, there is no danger of interaction or incompatibility while taking other kinds of treatments at the same time. They work on different levels.
4. Both: **Please wait at least 10 minutes before and after eating or drinking to take your Sols.** It is advised to not drink coffee or eat chocolate 10 minutes before or after taking your Sols. Also, avoid eating mint or brushing your teeth with mint-flavored toothpaste for 10 minutes before or after taking your Sols.
5. Both: **Store all Sols away from any temperature fluctuations, direct light, or heat.** Do not leave them in your car. Do not store the Sols in the refrigerator or close to a heat source. Caffeine, chocolate, strong herbs, or perfumes may reduce the effectiveness of the Sols. Do not store your Sols near these substances.
